

AOE FACULTY DEVELOPMENT WORKSHOP: SIMULATION

BENNY L. JOYNER JR., MD, MPH

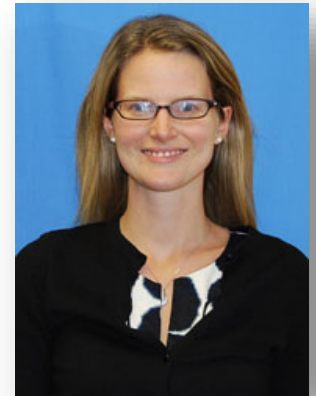

CHIEF, DIVISION OF PEDIATRIC CARE MEDICINE
ASSOCIATE PROFESSOR OF PEDIATRICS, ANESTHESIOLOGY, AND SOCIAL MEDICINE
DIRECTOR, UNC CLINICAL SKILLS AND PATIENT SIMULATION CENTER

Dr. Joyner developed the pediatric simulation program, conducting high-fidelity simulations within the CSPSC and in-situ at North Carolina Children's Hospital. Dr. Joyner also co-teaches the Inter-Professional Teamwork and Communication Course with faculty from the Schools of Nursing and Pharmacy. He officially joined the Clinical Skills and Patient Simulation Center in 2012 as Clinical Co-Director.

KIMBERLY BLASIUS, MD

ASSISTANT PROFESSOR OF ANESTHESIOLOGY AND PEDIATRICS
DIRECTOR, PEDIATRIC SIMULATION

Dr. Blasius has developed and created multiple simulation courses within the Children's Hospital and is currently working with multiple other pediatric anesthesiology simulation educators to create a national pediatric anesthesiology simulation collaborative. Her interests include pediatric anesthesiology fellowship curriculum development, pediatric perioperative team training with crisis management and simulation instructor training.

Monday, April 2, 2018

12:00 – 1:00 PM

Bondurant Hall Room 2035

REGISTER AT: [HTTPS://TINYURL.COM/YCVXLDBV](https://tinyurl.com/YCVXLDBV)

IN THIS WORKSHOP, PARTICIPANTS WILL:

- 1) Gain an understanding of what it means to be a simulation facilitator/instructor and what resources we have at UNC to help faculty become simulation educators
- 2) Explore the utility of simulation for medical education from simple task training to complex high-fidelity clinical encounters and explore the resources available at UNC
- 3) Participate in and learn about low fidelity and high fidelity simulation
