

CURRICULUM VITAE

Eric Mark Wallen

Education

- | | |
|-----------|---|
| 1996-2000 | Residency in Urology
Stanford University Medical Center, Stanford, California |
| 1995-1996 | Residency in General Surgery
Stanford University Medical Center, Stanford, California |
| 1994-1995 | Internship in General Surgery
Stanford University Medical Center, Stanford, California |
| 1990-1994 | M.D., University of California, Los Angeles, School of Medicine |
| 1985-1989 | B.A., Yale College, New Haven, Connecticut – Political Science |

Licensure and Certification

American Board of Urology 2002, recertified 2009
ABU 2000 (Part I), 2002 (Part II)
NH license issued July 5, 2000
USMLE 1995
Drug Enforcement Agency 1995

Professional Experience

- | | |
|-------------------|---|
| 11/2011 – present | Professor of Surgery (Urology)
University of North Carolina at Chapel Hill |
| 11/2006 – 11/2011 | Clinical Associate Professor of Surgery (Urology)
University of North Carolina at Chapel Hill |
| 8/2003-10/2006 | Assistant Professor of Surgery (Urology)
University of North Carolina at Chapel Hill |
| 2003 | Faculty, American Urological Association Course on Hand-Assisted Laparoscopic Nephrectomy
Houston, Texas |

2000–2003	Assistant Professor of Surgery (Urology) Dartmouth Medical School
2000-2003	Consultant, Urology Veterans Administration Hospital White River Junction, Vermont
2000-2003	Clinical Staff, Urology Mary Hitchcock Memorial Hospital Lebanon, New Hampshire
2002	Faculty, Hand-Assisted Laparoscopic Nephrectomy Course Lebanon, New Hampshire

Honors and Awards

2012	AUA Resident Committee Teacher of the Year
2009-2010	Faculty Teaching Award (“Attending of the Year”), Division of Urology
2009-2010	“Best Doctors in America”
2008-2009	Faculty Teaching Award (“Attending of the Year”), Division of Urology
2008-2009	“Best Doctors in America”
2007-2008	Faculty Teaching Award (“Attending of the Year”), Division of Urology
2007-2008	“Best Doctors in America”
2007-2008	“Who’s Who Among America’s Teachers”
2005-2006	“Best Doctors in America”
2005-2006	Faculty Teaching Award (“Attending of the Year”), Division of Urology
2004-2005	Faculty Teaching Award (“Attending of the Year”), Division of Urology
2004	North Carolina Urology Seminar, Third Prize, Case Research
2003	North Carolina Urology Seminar, First Prize, Research
2003	North Carolina Urology Seminar, Second Prize, Research
2002	Harmes Scholar Research Fellowship
1998	Second Prize, Northern California Residents Competition
1997	Pfizer Scholars in Urology Award
1994	Hewlett-Packard Award, UCLA
1993	AOA Honor Society, UCLA
1991	Research Fellowship, Neuropsychiatric Institute, UCLA
1989	Cum laude, Yale College
1988	Research Fellowship, American Diabetes Association

Clinical Firsts

Development of robotic surgery program at UNC. Training of first residents nationally to full robotic competence for prostatectomy and pyeloplasty.

“Life is short, art is long”

Hippocrates

As I reflect on my roles here at UNC-Chapel Hill, I recall these famous words of Hippocrates—my “Hippocratic Quote”—that describe my role as a physician in an academic institution. Artists and writers through the ages have usurped these words to exemplify the timelessness of art, yet the art of medicine is equally valuable and, indeed, immortal.

Teaching is the most satisfying aspect of my career, and all of my clinical and academic activity involves teaching in some form. I am involved with teaching medical students at all levels, residents in urology, and peers practicing urology in academia and private practice. I also spend a large amount of time teaching patients about their disease.

The most gratifying aspect of my job is functioning as a teacher for urology residents. Just this year I was selected by the Department of Surgery, the office of Graduate Medical Education, and the Division of Urology to assume the responsibilities of Program Director for Urology at UNC. This represents the achievement of a major career goal for me.

I have a close mentoring relationship with resident physicians in the formative phase of their careers, and find that I can function as a role model in many ways. This role includes the way I live my life—residents certainly observe and learn from my interactions with patients, with other physicians, with support staff, and with them. Although I am not frequently conscious of this role, it may be the most important aspect of my role as a teacher. I believe it crucial that residents work with teachers who display integrity, compassion, professionalism and honesty.

Just as important is the transmission of technical skills, and the facilitation of developing clinical ability. In my role as a surgical instructor, where I am very conscious of my role as a teacher. To my great satisfaction I have successfully trained several residents to perform complex laparoscopic surgeries, procedures that most surgeons require further training beyond residency. Once practicing on their own, these residents often contact me to recall our interactions as teacher and pupil and to express their gratitude.

There are many phases in the training of a surgeon. My goal, and those of the urology program, is to provide training appropriate to the level of the learner. Early in my interaction with residents, I try to impress upon them the importance of what happens before the patient reaches the operating room—patient selection, counseling, and alignment of expectations regarding surgery. Concomitantly the resident is taking on a limited role in the operating room, where I can instruct them in the basic technical principles of surgery. I have been working towards bringing more animate labs and simulation into our curriculum to help residents along this path. Later in surgical training my role as a teacher is to push the resident towards mastery—they must be able to complete the entire operation, and they must be able to handle the unexpected or adverse event during the operation. During this time I begin to hold my own responses in check to allow the resident to experience the initial responses to a dynamic situation. There is a perceptible joy apparent when the junior level resident successfully completes even the simplest operation. As residency goes on, the sense of accomplishment remains perceptible with increasingly complex operations. I always enjoy watching residents progress through this last phase of learning.

As program director I am grateful for the opportunity to pursue curricular development for resident education, and look forward to a larger role in the institution by participating in GME and Academy of Educator activities. I look forward to the future challenges in medical education, and expect to have a lasting impact at UNC.
